face Judges. On the 27th of July ult., Judge Kane, of the U. S. District Court, at Philadelphia, gave a decision which has already raised him to the "bad eminence" occupied by Judge Grier and other doughfaces who have prostituted the pench to the unlawful support of slavery.

The facts are these. John H. Whecler, of North Carolina, U. S. Minister to Nicaragua, was passing with three slaves, (a woman and her two children) through Pennsylvania. The woman managed to make her case known to some colored people in Philadelphia, and declared her determination to leave her master as soon as she reached New York, where she supposed the laws would make her free. The colored people consulted Mr. Passmore Williamson, an active Anti-Slavery man, who went with them to the wharf where Col. Wheeler was taking his "chattels" on board a boat to start for New York. They found the weman, and Mr. Williamson asked her in her master's presence, whether she wished to be free. She said she did. and he then informed her that she was free, by the laws of Pennsylvania, since an idle man with a thousand."
